eLearning Courses

Welcome to Bloomfield HR eLearning

At Bloomfield HR Consultancy, we offer a vast range of online training courses to get individuals, employees and employers accredited; we offer training in various areas such as health, safety, welfare and business policy giving you the best outcomes for you and your organisation.

Courses are accessed remotely, 24 hours a day, 7 days a week and can take between 45 - 180 minutes depending on the chosen course and learners pace. These engaging eLearning modules, filled with award winning content, have helped train millions of individuals and are recognised internationally for legislative compliance.

How do I access the online courses ?

Once setup you can login from your device securely to ClickHSE, the online health and safety learning management system. You can complete the course at a time to suit you and use bookmarks to return to your page should you need to take a break. At the end of the course you will be presented with an assessment of multiple choice questions and will need to score 80% to be awarded the course certificate.

What if I fail the course?

Don't worry... if this happens you can take the course as many times as you like.

How long will I have to complete the course?

You have up to three months to complete your course from the date of purchase.

How do I become certified and accredited?

On completion of the course the trainee will be awarded a fully personalised certificate which can be printed on the day and is also saved within our secure training platform ClickHSE. Copies can be made available should a copy be required in the future for your evidential proof of training.
